“Teach me first, I’m the mom”!

I remember the first time I heard a mom say those words, “teach me first, I’m the mom”! Our book, *“A Chicken’s Guide to talking Turkey w/ your kids about Sex”*, by Dr. Kevin Leman and Kathy Flores Bell (Harper Collins/Zondervan, 2004) was just released. I was at a large mother/daughter convention as the main speaker. The plea of the parent to be involved in her daughter’s puberty education program re-affirmed my decision to continue to host programs outside of school hours and on weekend days. The primary parent/caregiver needs to be by the daughter for her “first” information. *Welcome!*

The Book!

“A Chicken’s Guide to Talking Turkey with your Kids about Sex”, by Dr. Kevin Leman and Kathy Flores Bell, HarperCollins/Zondervan, 2004. Do you have it? Most folks come to this program knowing what we do and how the material is taught. If you want to know our philosophy regarding puberty education you have to READ our book. *“Hygiene education is the gateway to sexuality education which is the gateway to sex education”*. The culture we live in spares no detail about what *they* want your child to know. Where is the balance, where is the age appropriate message? How does a parent decide what is the best information for their child and the circumstances they live in? Get the book, and your concerns are answered. ♥ *NEW!* Our new office encourages “mom only time”; office hours, private appointments and round table discussions, make an appointment today!
